Requested Design Data

State of aggregation:	☐ liquid ☐ gaseous ☐ vaporous
Medium:	name: _____ formula: _____ concentration: _____
Rated pressure:	_____ bar
Operating pressure:	_____ bar ☐ absolute atmosphere ☐ above atmospheric
Rated temperature:	_____ [_____] unit
Operating temperature:	_____ [_____] unit
Density:	_____ [_____] unit
Viscosity:	_____ cSt. at _____ ℃
Flow rate:	_____ [_____] unit
Required filter finess:	_____ µm or mesh: _____
Specification of the dirt level:	_____
Type of Filters:	Temporary strainer ☐ Witch Hat ☐ Top Hat ☐ Flat Disc Mono strainer ☐ T-Type ☐ Y-Type ☐ Mono In-Line Duplex-Strainer / Fully Automated Systems ☐ Firplex ☐ self cleaning system
Material of the housing:	_____
Material of the filter element:	_____
Connection:	☐ socket weld ☐ screwed gland [G] _____ ☐ flange [DIN] ☐ flange [ANSI] DN _____
Quantity strainer:	_____ piece
Certificate / inspection:	_____
